👤 PROFILE

I am a passionate and driven individual who loves coding and software development. I am looking forward to working in a junior developer position where I can use my skills and knowledge to contribute to creating better software solutions. I am excited to learn and grow in a collaborative and dynamic environment that encourages professional development and innovation.

💼 PROFESSIONAL EXPERIENCE

Research Associate
International Institute of Tropical Agriculture (IITA)
Jan 2021 – Nov 2022 | Nairobi, Kenya

- Managed and tracked the project budget, ensuring accurate and timely financial reporting.
- Monitored project progress with Smartsheet and ensured the timely completion of deliverables by the team.
- Analyzed key project metrics, providing valuable insights to stakeholders on a monthly basis.
- Coordinated activities for different projects.
- Supported project administration tasks, including technical reporting, meeting management, and documentation, using Microsoft tools.
- Shared budgets and spending information with team leads on a monthly basis.
- Provided guidance and support to a team of two interns, ensuring accurate and timely reporting of their tasks.

Project management and communication consultant
International Institute of Tropical Agriculture (IITA) ⧉
Mar 2020 – Dec 2020 | Nairobi, Kenya

- Managed WordPress website for one project with a focus on delivering professional presentations and compelling content.
- Managed social media platforms for two projects, efficiently curating and managing content.
- Worked collaboratively with communication specialists to drive impactful social media engagement.
- Organized and executed weekly mass email campaigns using Campaign Monitor.
